

85

850 lbs (386 kg) Capacity

TINY BUT TOUGH

When the work space is tight, but the jobs are big, nothing compares to the 85 from Thomas. With its slim 36" (914 mm) footprint and reliable 19.8hp Kubota diesel the 85 will zip through the narrowest work areas and packs more than enough power to get the job done. A full 850 lb. (386 kg) lifting capacity combined with two bucket cylinders for maximum front end strength and a breakout force of over 2200 lbs. (998 kg) mean those big jobs are quickly trimmed down to size.
